B. Finance Committee – Met March 18, 2016.

Mr. Garlock reported that the revenue was approximately 1.34 million dollars, which is about \$236,000 over budget. Expenditures were approximately 2.1 million dollars, which was about \$208,000 under budget. The Finance Committee discussed an issue that was currently being worked on. Two Early Intervention Specialists were set up in the wrong retirement system. They were set up in STRS instead of PERS. The money had to be transferred over to PERS plus PERS charged the Board \$110,000 in interest. We currently have counsel working on trying to get the interest refunded from STRS.

The Billing Connection issue is still not resolved. They still owe the Board at least \$75,000. Martha Nance, Director of Business, found more billing errors today. She did what billing she could but we will most likely have more lost revenue because of The Billing Connection.

C. Personnel Committee- Met on March 21, 2016.

For the past four months we have been analyzing the current organizational structure and planning for a restructure that will have two phases. The first phase will be effective June 1, 2016 and the second on July 1, 2016. We recognize that the transition of Adult Services and Transportation to an MII administration will have a significant impact on the workload and staffing needs for the Board Administration. In an effort to be fiscally minded we have decided to abolish the Human Resource Director position in favor of a leaner structure. Superintendent Schnipke recommended one position title change from Administrative Assistant-Fiscal/Technology to Human Resources (HR) Manager. This position will stay in the Business Office. This staff member has been completing many HR duties and will have several additional duties; however, she will also retain several present Business Office responsibilities. A few HR functions will also officially move to the Superintendent's Office. To adequately cover all that is needed regarding HR functions Superintendent Schnipke recommended the creation of one new position, an Administrative Assistant to the Superintendent so the Administrative Assistant that is shared between HR and the Superintendent can be full-time HR duties. To allow for this we are changing several duties for the other Administrative Assistant in the Business Office. We believe with all these responsibilities shifting we can improve our HR functions significantly. These changes will be effective June 1, 2016.

The second phase of this restructure involves not replacing the Director of Community Support Services when she retires this summer. This was a much harder decision to make given the extremely important role that the Community Support Services department plays in current and future board services. With the two current managers, we have decided we will form two separate departments, Service & Support Administration and Quality & Support Services. Superintendent Schnipke can also take a bigger role in these functions given her past position at the Board and the changes in the Board's administrative functions as listed above. To accomplish this we are recommending the creation of one Administrative Assistant- SSA. The current Administrative Assistant that is primarily used for individual filing/scanning will be moved to

the Superintendents office as the agency Records Clerk. She will handle not only filing/scanning for more than 600 individuals served by the Board but also official board documents for the Business office and the Superintendents office. These changes will be effective June 1, 2016.

On the Table of Organization we have added the six Transition Carry Over employees. These will not move until July 1, 2016. The total cost savings of this restructure is estimated to be \$153,000.

Mr. McPheron stated that a 90 day review and a 6 month review will be conducted to ensure all jobs are covered adequately.

The vote was tabled so the Board could discuss in Executive Session.

- D. Planning Committee
- E. Policy Committee - Met March 22, 2016
 - 1. Approve New Policies

Policy 5.3.7 Employee Code of Ethics - The changes to this policy reflect the direction we were given regarding ORC §5126.031 and in line with changes made in the Ethics Council the past two months. The policy revisions also reflect a significant change in the list of ethical issues v. what is appropriately listed in other policies, such as MUI. Due to opinions reviewed in the Ohio Ethics Commission material, amount and times that 'gifts' to public servants was also amended. The original policy was also provided as this was almost a complete rewrite.

Policy 5.3.13 Family Medical Leave - This policy was reviewed and rewritten by Board legal counsel to make sure that it aligned with federal law. Our practices have been correct. The original policy was also provided as this was a majority rewrite.

POLICY COMMITTEE RECOMMENDATION 35-16: The Policy Committee recommended and so moved that the Board approve Policy 5.3.7 Employee Code of Ethics and Policy 5.3.13 Family Medical Leave as presented.

XII. New Business

A. Carry Over Contract with Marimor Industries, Inc.

To continue transition planning, a contract is required with Marimor Industries, Inc. specifying the Board will request for OPERS to deem which employees from Adult Services and Transportation will be Carry Over employees in accordance with §ORC: 145.01. The board will then make arrangements with the Allen County Auditor for the employer share of the retirement contribution to be paid to OPERS for the employees who elect to remain in OPERS.

SUPERINTENDENT RECOMMENDATION 36-16: Superintendent Schnipke recommended that the Board approve the PERS Carry Over Contract with Marimor Industries Inc.

B. Recommendation for Buses

The Allen County Schools are interested in accepting our buses after transition is complete on June 30, 2016 and grateful for the opportunity since they will begin transporting their children to our school beginning with the 2016-2017 school year. Superintendent Schnipke has discussed this with the Commissioners who also are supportive. They asked that we consider donating one to the RTA also. Lima City Schools has 20 children attending Marimor School so they will have a separate route dedicated to the transportation of our children. Superintendent Schnipke recommended the Board donate bus 18 to Lima City Schools. Then given the amount of transportation that the RTA provides they have chosen bus 22. For the remaining 9, Superintendent Schnipke will work with the Allen County Schools Superintendents at their monthly meeting to agree on a fair distribution. If any of the buses are not wanted by the schools, the ARC of Allen County would also accept a bus to replace the bus they contract with us each summer for camp. If any are remaining at this point Superintendent Schnipke recommended we ask the Commissioners for permission to sell on GovDeals.net as we have in the past following the procedures established by the County Commissioners.

SUPERINTENDENT RECOMMENDATION 37-16: Superintendent Schnipke recommended that Board request the Allen County Commissioners declare the items listed below as not needed for the public use for which it was acquired in accordance with ORC §307.12 and to allow the Allen County Board of Developmental Disabilities to distribute buses as listed above to other public entities in accordance with ORC §307.12(D).
