

# Partnering With Pals

*It's the friends we meet  
along the way that  
help us appreciate the  
journey.*

## *What we do:*

**The Pals Team** is a part of the FANS Network. We work with individuals with disabilities who need a personal connection to help them learn about the possibilities that await in our community and in exploring new things.

## *Join us!*

We are looking for volunteers to become “social companions” to help people with disabilities become more active in their community, meet new people, join groups and associations, and/or develop new friendships. Volunteers on the **Partnering With Pals Team** are paired with a person with a disability based on common interests and hobbies. If you have a hobby or skill that you would like to share, or if you are involved in a group or association and would like to invite a new friend to join you, this is the perfect team for you!

If you would like to join the FANS Network, or if you would like more information about this initiative, please contact Sarah Troyer by phone at (419) 221-1385 ext. 1008 or by email at [stroyer@acbdd.org](mailto:stroyer@acbdd.org). We can make a difference together - the possibilities are endless when you pair up with a pal!
